

Please do not weaken Wisconsin's "No Call" list. We receive enough telemarketing calls from companies we do business with. We do not need to add companies that are affiliated with a company that we did business with once but no longer conduct business with. There are advertisements on t.v., on the radio, on billboards, before movies, in newspapers, on the internet, etc. Everywhere we look, someone is trying to sell us something. We don't need to add more telemarketing calls.
